

HelmholtzZentrum münchen

German Research Center for Environmental Health

Within the framework of a joint appointment, the Medical Faculty of the Universität Leipzig and the Helmholtz Zentrum München invite applications for a

University Professorship (W2) in Metabolic Research (reference number B2/2020)

and the position of

Head of the field Metabolic Research of the Helmholtz Institute for Metabolic, Obesity and Vascular Research (HI-MAG) of the Helmholtz Zentrum München at the Universität Leipzig

For this position, we are looking for a scientist in the area of clinical metabolic research whose accomplishments in research and education have proven scientific independence. Several years of scientific activity in the area of metabolic research as proof of the ability to plan, manage and execute epidemiologic, translational and clinical studies are a prerequisite. Moreover, the candidate is expected to develop scientific projects, to initiate research associations, to support young scientists, and to participate in the research alliances of the Medical Faculty and the Helmholtz Association, especially regarding the research areas obesity and metabolism at HI-MAG and long-term complications of diabetes at Helmholtz Zentrum München.

Employment requirements are a university degree in medicine, a doctorate and postdoctoral qualifications or equal achievements within the research area, extensive teaching experience, as well as recognition as a specialist in internal medicine or pediatrics. Exceptional research performance and grant acquisition are expected.

All rights and duties of the holder of the position result from the Saxon University Freedom Law (SächsHSFG) and the Saxon Dienstaufgabenverordnung (DAVOHS). Applicants have to meet the appointment qualifications in accordance with section 58 of SächsHSFG.

The appointment as head of the field metabolic research within the Helmholtz Institute for Metabolic, Obesity and Vascular Research will be carried out under the terms of a private-law contract.

Clinical duties will be implemented as stipulated by the Saxonian Law on University Medicine (Sächsisches

Clinical duties will be implemented as stipulated by the Saxonian Law on University Medicine (Sachsisches Hochschulmedizingesetz), passed at Leipzig University Hospital, a public institution, on May 6th 1999.

The Faculty of Medicine and the Helmholtz Zentrum München aim at increasing the number of women in research and academia. Therefore, qualified female scientists are explicitly encouraged to apply. Equally qualified candidates with disabilities will be preferred. Universität Leipzig and Helmholtz Zentrum München offer support for dual-career couples.

Please submit your full application, including the standard documents (publication list, list of academic teaching activities, certified copy of the highest academic qualification, license to practice medicine, evidence of formal qualifications, additional specialized trainings as well as up to 10 selected reprints of original peer reviewed publications) including an application form (available at https://www.uniklinikum-leipzig.de/Seiten/mf-berufungsverfahren.aspx) by 15 January 2021 to:

Dean of the Faculty of Medicine Prof. Dr. med. Michael Stumvoll Liebigstraße 27 b D-04103 Leipzig MB-Dekanat-MedFak@medizin.uni-leipzig.de

Please also send an identical copy by electronic mail to: Prof. Dr. Dr. h.c. Matthias Tschöp, CEO Helmholtz Zentrum München Postfach 11 29, D-85758 Neuherberg, Germany (appointments-hmgu@helmholtz-muenchen.de)

Your application will be sent without encryption. Please contact us for the possibility of an encrypted transfer. Information on the collection of personal data from the data subject under Article 13 of the DSGVO as part of the application procedure can be found at https://www.uniklinikum-leipzig.de/Seiten/mf-berufungsverfahren.aspx and at https://www.helmholtz-muenchen.de/appointments-data-processing.

The Helmholtz Zentrum München is part of the Helmholtz Association, Germany's largest scientific organization. Altogether 42 000 people currently work in its 19 scientifictechnical and biological-medical research centers. The Association's annual budget amounts to more than 5 billion Euros.
