Save the date: Vortrag am 12. Oktober 2026 via Zoom

Liebe Kolleginnen, liebe Kollegen,

der Fachbereich Public Mental Health der DGPH, die Arbeitsgruppe Public Mental Health der DGSMP, das Referat Psychosoziale Versorgungsforschung und Public Mental Health der DGPPN und die Fachgruppe Seelische Gesundheit des DNVF laden Sie anlässlich des Welttags für Seelische Gesundheit (10. Oktober) ein zu einem Vortrag am **Montag, 12. Oktober 2026, 12 Uhr** via Zoom.

Prof. Jayati Das-Munshi

Professor of Social & Psychiatric Epidemiology
Institute of Psychiatry, Psychology & Neuroscience
King's College London

Population mental health monitoring in the UK and Europe - challenges, reflections and opportunities – World Mental Health Day, October 10, 2026

Biography

Professor Jayati Das-Munshi is an academic psychiatrist and epidemiologist whose work focuses on mental health inequalities and their social determinants. She is President for the Section of Public Mental Health for the European Public Health Association (EUPHA) and holds a Chair in Social & Psychiatric Epidemiology at King's College London. She is Principal Investigator and Co-Director of the UKRI-funded Population Health Improvement UK ([PHIUK](#)), [Population Mental Health Consortium](#). The Population Mental Health Consortium is a partnership across 10+ academic organizations, local government, voluntary

organizations and people with lived experience, focused on prevention research in population mental health, through maximizing the potential of large-scale linked UK data.

In addition to an interest in prevention at a population-level, her research focuses on the social and structural determinants of mental illness, physical health inequities, and other adverse outcomes experienced by people living with severe mental health conditions. She has particular expertise in large-scale longitudinal data and led one of the [first data linkages](#) of national census data to electronic mental health records in England, at individual-level. This linkage has shed light on the specific inequalities impacting onset, course, and outcomes of people living with severe mental health conditions.

Her work has informed guidelines and initiatives led by the World Health Organization, UK government, and the United Nations, where she has contributed in expert advisory roles.

Alongside her academic work, Professor Das-Munshi is a practicing consultant liaison psychiatrist.

Wir freuen uns auf einen anregenden Vortrag und ein großes Publikum!

Ihr Organisationsteam

Prof. Dr. Ulrich Reininghaus, Mannheim

Prof. Dr. med. Steffi Riedel-Heller, Leipzig

Prof. Dr. Georg Schomerus, Leipzig
